

# EHR Professional Services Project Management Team

Keeping projects on track is difficult.  
DeliverHealth can help you stay focused on  
patient care instead of administrative tasks.

## Professional Services

---

### Key benefits

- Experts in managing both small and large-scale projects
  - Provides project prioritization, budgetary governance with cost savings
  - Low risk of project failure due to lack of strong project governance and change control management
  - Increased productivity efficiencies and quality
  - Projects completed on time and on budget
-

A project management office can create smooth workflows during large projects. Leveraging a project management team that uses a dedicated project management methodology, throughout the life of a project produces better outcomes across the board.

Our professional services project management team can help if you:

- Are embarking on programs and projects without a change management structure in place
- Realize the depth of scope for a Community Connect can encompass more tasks that anticipated”.
- Are moving to a new EHR and need implementation expertise
- Need a go-forward plan for your EHR solution to include project framework

## **Solutions**

### **Program Management**

Align with your project management team for program support, development and overall execution.

### **Community Expansion**

Provide solutions covering all aspects of project planning for the facility-wide rollout for EPIC Community Connect or Cerner Community Works platforms.

### **Implementations**

Provide a project management team solution for a new vendor implementation.

### **Refuel/STARs/Honor Roll programs**

Provide an Eic project managed solution to reduce software customization and improve workflow, with a focus on Refuel, STARs and Honor Roll initiatives.

### **Non-EHR IT Initiatives**

Provide project oversight and governance framework for third-party solutions (CRM), clinical imaging, ancillary, ambulatory, for both cross-EHR and other initiatives outside the EHR.

---

## **Expected Outcomes**

- Customers have a change management structure in place to be successful and realize benefits from their selected programs/projects
  - Customers have a detailed plan for successfully rolling out additional EPIC Community Connect locations to include requirements by the Host System
  - Collaboration is initiated with the new EHR vendor to provide for the necessary implementation planning to be successful
  - Customer is aware of what customizations can be removed to improve workflow and increase staff productivity
-
